

## BIODATA

DUONG TUAN HUNG, PhD, Head of the Laboratory of Environmental Chemistry, Institute of Chemistry and Faculty of Department of Chemistry, Graduate University of Science and Technology, Vietnam Academy of Science and Technology. Dr. Duong Tuan Hung obtained his Ph.D. in Chemistry at the University of Illinois at Urbana-Champaign thanks to a fellowship from Vietnam Education Foundation (VEF) in 2009. His academic research focuses on analytical chemistry, food chemistry, environmental chemistry, renewable energy, electrocatalysis, water treatment, and air pollution. His work and teaching are highlighted by several awards and many papers in peer-reviewed national and international journals, patents... Notably, Dr. Hung was named one of “The Best Young Talented Vietnamese Researchers” by the Ministry of Science and Technology meeting with Prime Minister Nguyen Tan Dung in 2015. He has participated and contributed significantly to many projects at national and academy levels specialized in environmental treatment, science, and technology research and development.

He is a member of the Scientific Council in the Environment – Energy Division, Vietnam Academy of Science and Technology, steering committee of Vietnam Education Foundation Fellows, Alumni and Scholars Association.
