

## FOOD CONTROL CONFERENCE 2024 24 - 25 October 2024, Ha Noi – Viet Nam

### **Biography**

**Anders Henriksson, PhD.**

*Application and Technical Support Group Leader, APAC  
IFF Health & Biosciences.*

Anders and his team support the development of probiotic products formulated for the dietary supplement and food industry throughout the Asia Pacific Region. Prior to IFF, Anders was with Danisco from 2008, when he joined as a senior scientist and group leader based in Singapore, where he led R&D projects related to culture formulations for dairy and dietary supplement products. Before that he worked as a scientist involved in culture development and pre-clinical and clinical studies on probiotics and prebiotics. He has a PhD in microbiology from the University of Gothenburg, Sweden and completed postdoctoral research in the field of gastrointestinal microbiology at Australia's University of New South Wales. Anders is currently based in Sydney, Australia.
