

FOOD CONTROL CONFERENCE 2024 24 - 25 October 2024, Ha Noi – Viet Nam

Biography

Ms. TRAN THI ANH NGUYET

*Head of Microbiology – GMO testing Laboratory
AFRL (ASEAN Food Reference Laboratory) for Food
Microbiology
Quality Assurance and Testing center 3 (QUATEST 3)
Commission for Standards, Metrology and Quality of Viet nam
Ministry of Science and Technology (MOST)*

2004: Bachelor of Biotechnology, University of Science, Viet Nam National University, Ho Chi Minh City

From 2004 up to now: has working for Microbiology – GMO testing Laboratory, she has over 20 years of food microbiology testing experience.

- + Good understanding of laboratory sciences, technologies, processes, and methods related to Microbiology testing (basic techniques in biochemistry microbiology, molecular biology, ELISA, and MALDI TOS MS...)
- + Implementation and maintenance the technical requirements of microbiology testing lab following the quality system of the laboratory in compliance with ISO/IEC 17025
- + Technical training for internal laboratory staffs as well as other domestic and international laboratory for Microbiology aspect.
- + Being a Lead Auditor for Quality system according to ISO/ IEC17025 and ISO/IEC 17043, external Auditor for technical requirements according to ISO/ IEC17025 in Biology field
- + Management and organization of activities of ASEAN Food Reference Laboratory laboratories (AFRL) for microbiology
 - To coordinate the proficiency testing in food microbiology for ASEAN Member countries (AMCs)
 - Provide training and technical advice and services to AMCs
 - Collect and disseminate information related to the methods of analysis and sampling, as well as on procedures for quality assurance and quality management, strains, reference cultures in food Microbiology analysis
