

INTERNATIONAL FOOD CONTROL CONFERENCE 2026

15th - 17th October 2026, Ha Noi - Viet Nam

Biography

Full name, Title: Nguyen Tra My

Position: Researcher

Affiliation: National Institute for Food Control

Nguyen Tra My graduated in Food Science and Technology from VNU University of Science, Vietnam National University, Hanoi, in 2026. She began her internship at the National Institute for Food Control (NIFC) in September 2025, where she has developed practical experience in food microbiology and food safety testing. Her research has focused on the detection, identification, and characterization of microorganisms in foods. During her academic and research training, she has gained experience in conventional microbiological techniques, bacterial identification using MALDI-TOF MS, PCR-based detection of toxin-associated genes, and microbiological enumeration. Her research interests include foodborne pathogens, molecular detection methods, microbiological analysis, and laboratory approaches to food safety. She aims to further develop her expertise in food microbiology and analytical testing and contribute to reliable and scientifically sound food safety assessment.
