

INTERNATIONAL FOOD CONTROL CONFERENCE 2026

15th - 17th October 2026, Ha Noi - Viet Nam

Biography

Full name, Title: M.Sc. Dinh Viet Chien

Position: Deputy Head in Charge, Laboratory of Heavy Metals and Minerals

Affiliation: National Institute for Food Control (NIFC), Vietnam

Dinh Viet Chien is a food safety researcher with extensive experience in analytical chemistry, particularly in the analysis and risk assessment of heavy metals and mineral elements in food. From 2011 to 2019, he worked as a researcher at the National Institute for Food Control (NIFC), Vietnam, where his work focused on the analysis of vitamins, amino acids, sweeteners, preservatives, metallic and non-metallic elements, and elemental speciation in food. Since 2020, he has served as Deputy Head in Charge of the Laboratory of Heavy Metals and Minerals at NIFC. His current work focuses on analytical method development, food safety research, monitoring of heavy metal contamination, and food safety risk assessment. He is also actively involved in technical training and provides consultancy on laboratory establishment, quality management, and ISO/IEC 17025 accreditation. In addition, he contributes to the development and revision of Vietnamese national standards and technical regulations related to food safety.
